

**FREE  
COUNSELING  
FOR BOONE  
COUNTY  
YOUTH AND  
FAMILIES**

Asking for help is HARD... we make it easy! FACE is here to help youth (ages 0-19) and their families connect to services that address their needs in this challenging time (e.g., mental health, social services, parenting support, activities for home). All our services are free to Boone County families and youth. Please call us for tele-health support at (573) 771-FACE (3223).

**How to access free counseling during COVID-19:**

In collaboration with the Boone County Children's Services Fund, FACE will conduct a brief assessment, provide families with a menu of service options to meet their needs, connect families to their choice of a local provider or therapist, and pay for up to 6 hours of therapy for families unable to pay for such services and for those who are currently not receiving therapy services.
