

CPS iPad Overview

Let's be sure you have everything loaded for online learning!

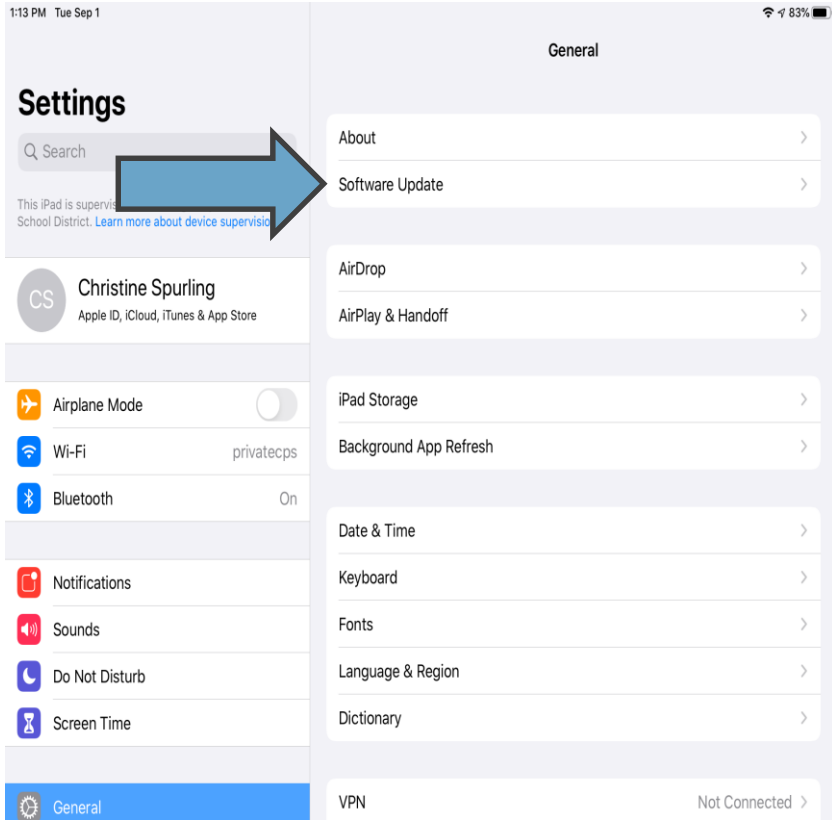

Hey Students,

School starts next week! Since you don't have any supplies to get together, we thought you might want to be sure your iPad is ready. Get out your iPad and charger and charge it up so you will be ready for the first day.

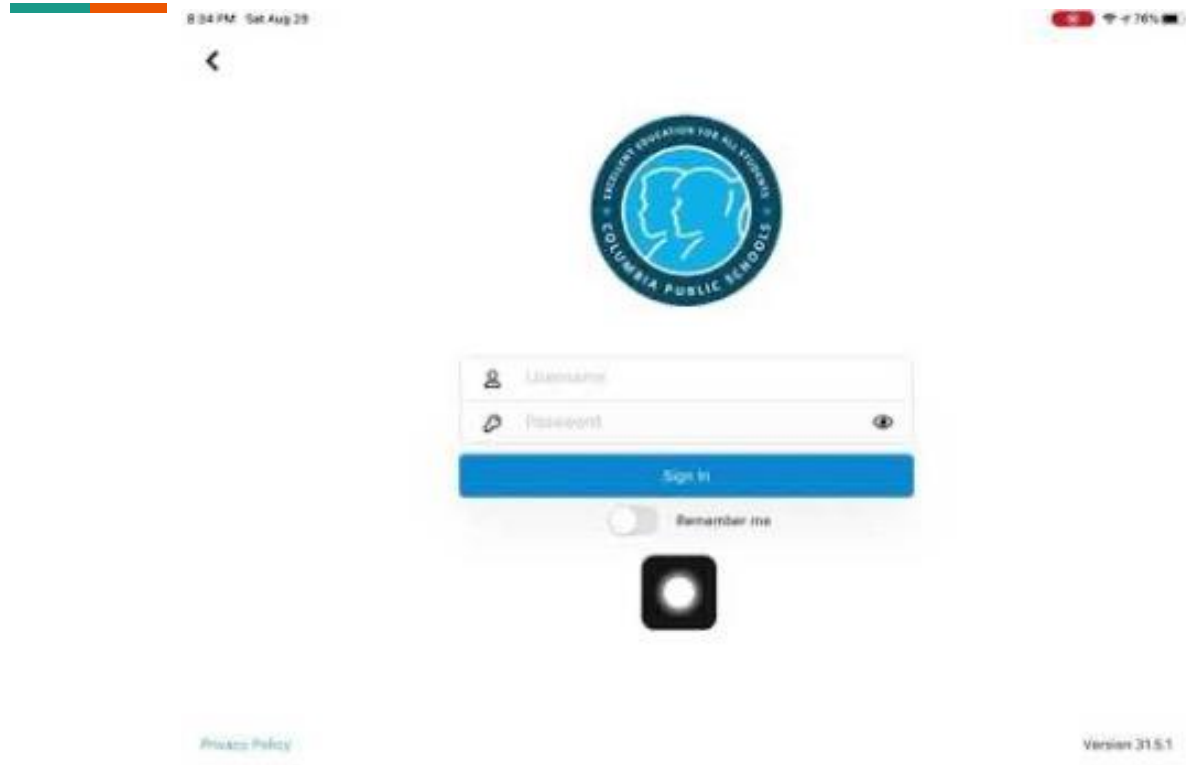

Be sure to use the charger with the BIG block so it will charge completely! Once you are all charged up, continue through these slides.

We can't wait to SEE you online!!

Look at your software and be sure it is update to the latest version: **13.6** or **13.6.1**

Self Service

Use the Self Service App on your iPad to install apps. This should already be on your iPad. If it is not there, please contact your media specialist.

Find These Apps on Your iPad

- if they are not there, install them.

Google Drive

Schoolology

Notability

Zoom

Email

- Test your email app and be sure it is working now. You can send an email to a friend of yours and see if they are ready for school. If your iPad asks you for your password, be sure to enter it.
- If you were at Gentry last year, your password starts with your lunch number and has the first 3 letters of your birthday month on the end, with the first one capitalized.
- Remember, your email does not work on addresses outside of school, so the email address has to end in: @stu.cpsk12.org or @cpsk12.org
- If your email does not work, see if you can send Mrs. Spurling a message through Schoology in the GMS Media Center course and let her know it is not working.
- If you cannot do that, ask someone at home to send her an email with your student name at cspurling@cpsk12.org

Care

You are all set!

You will be getting more information later this week on how to find your schedule and how to connect with your teachers on Tuesday! Since we are ALL online, we will get to see ALL of you everyday!

Remember, this is going to be different for everyone – students, parents and even teachers! We will be learning with you and we will go very slow the first week so we are sure that we all know what we are doing.

Updates will be coming to your email, your parent's email, our website, and social media to inform you of what comes next!
