

Mitel Connect (Mobility) is available for CPS salary employees!

To install Mitel Connect on your Android device, first visit the Google Play Store. Search for Mitel Connect, and then choose to install the app:

Once you open the app, Mitel will have a series of pop-ups; we recommend you Allow notifications, Accept the 911 warning, and choose No on enhancing Mitel Application Performance.

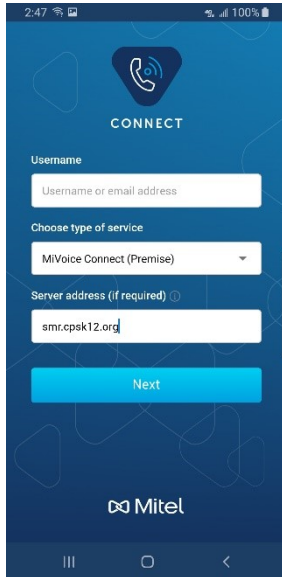

On the next screen, input the following information—

Username: your district username (without the @cpsk12.org)

Choose type of service: MiVoice Connect (Premise)

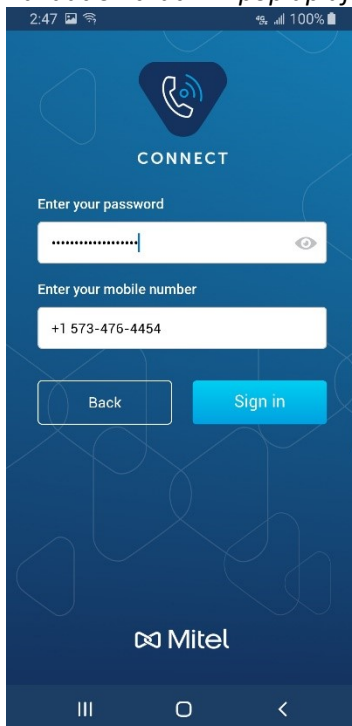

Final box: smr.cpsk12.org

A screenshot of the Mitel CONNECT app registration screen. The screen has a dark blue background with a white telephone handset icon and the word "CONNECT" at the top. Below the icon is a "Username" label and a text input field containing "Username or email address". Underneath is a "Choose type of service" dropdown menu with "MiVoice Connect (Premise)" selected. Below that is a "Server address (if required)" label and a text input field containing "smr.cpsk12.org". At the bottom of the form is a blue "Next" button. The Mitel logo is at the bottom of the screen.

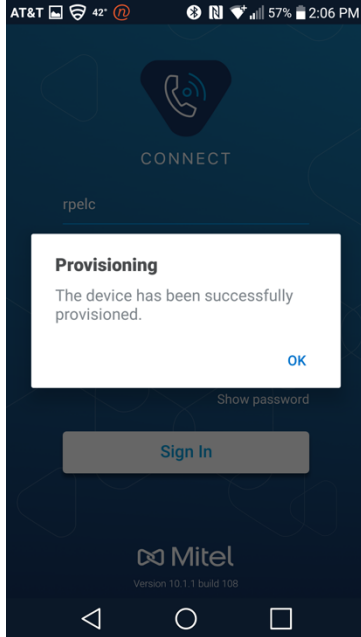

Password: your district password

Mobile number: the telephone number of the device should show up here. If not, it will need to be entered. *If you must enter your number, you will need to say yes to the International Number Format Validation that will pop up after you click on Sign In.*

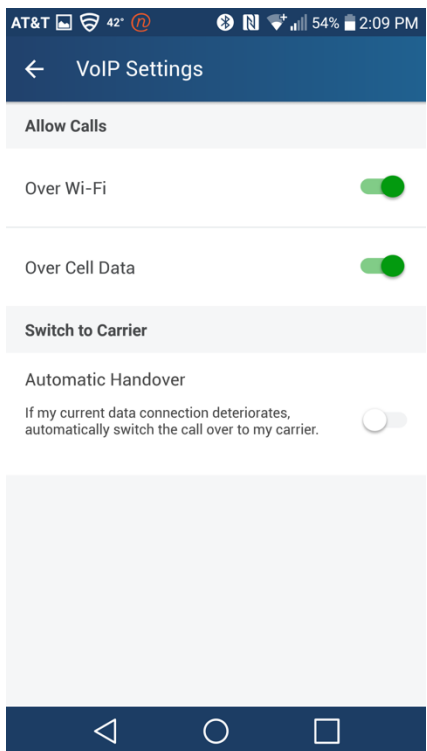

A screenshot of the Mitel CONNECT app sign-in screen. The screen has a dark blue background with a white telephone handset icon and the word "CONNECT" at the top. Below the icon is an "Enter your password" label and a text input field with a password mask and an eye icon. Underneath is an "Enter your mobile number" label and a text input field containing "+1 573-476-4454". At the bottom of the form are two buttons: a white "Back" button and a blue "Sign in" button. The Mitel logo is at the bottom of the screen.

You should now be told it's provisioning:

If you are asked to allow the Mitel Connect app to access phone features such as, but not limited to, Contacts, Calendar, Bluetooth and Microphone, please allow.

Finally, click on the Settings (gear) icon and choose VoIP Settings. If you are using a personal cellphone with Mitel Connect and do not want to use Cell Data, deselect Over Cell Data.

You are now setup.
