

Mitel Connect (Mobility) is available for CPS salary employees!

To install Mitel Connect on your iOS device, first visit the App Store. Search for Mitel Connect, and then choose to install the app:

Once you open the app, Mitel will have a series of pop-ups; we recommend you Allow notifications, Accept the 911 warning, and choose No on enhancing Mitel Application Performance.

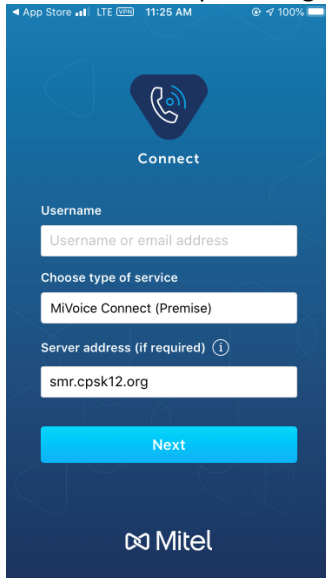

On the next screen, input the following information—

Username: your district username (without the @cpsk12.org)

Choose type of service: MiVoice Connect (Premise)

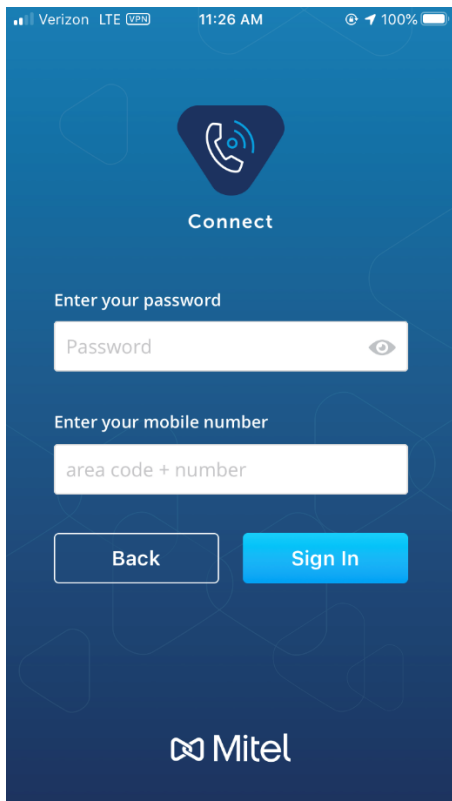

Final box: smr.cpsk12.org

A screenshot of the Mitel Connect app registration screen. The background is dark blue with a faint grid pattern. At the top, there's a status bar with 'App Store', 'LTE', '11:25 AM', and '100%' battery. Below the status bar is a white icon of a telephone handset with a signal wave, and the word 'Connect' underneath. The form has three input fields: 'Username' with a placeholder 'Username or email address', 'Choose type of service' with a dropdown menu showing 'MiVoice Connect (Premise)', and 'Server address (if required)' with a placeholder 'smr.cpsk12.org'. A blue 'Next' button is at the bottom. The Mitel logo is at the very bottom.

Password: your district password

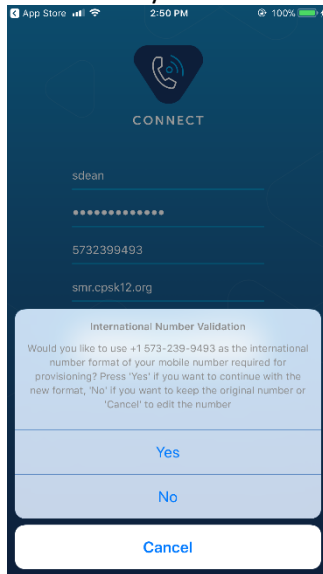

Mobile number: the telephone number of the device you are using

A screenshot of the Mitel Connect app login screen. The background is dark blue with a faint grid pattern. At the top, there's a status bar with 'Verizon', 'LTE', '11:26 AM', and '100%' battery. Below the status bar is a white icon of a telephone handset with a signal wave, and the word 'Connect' underneath. The form has two input fields: 'Enter your password' with a placeholder 'Password' and an eye icon, and 'Enter your mobile number' with a placeholder 'area code + number'. There are two buttons: a white 'Back' button and a blue 'Sign In' button. The Mitel logo is at the very bottom.

If you are asked to allow the Mitel Connect app to access phone features such as, but not limited to, Contacts, Calendar, Bluetooth and Microphone, please allow.

You will likely be asked to validate the number, please select Yes.

You should receive a message that the device has been successfully provisioned. Next, Mitel Connect will ask to access your calendar, contacts, and microphone. We recommend you select OK on all pop-ups.

Finally, click on the Settings (gear) icon and choose VoIP Settings. If you are using a personal cellphone with Mitel Connect and do not want to use Cell Data, deselect Over Cell Data.

You are now setup. You will need to manually remove the old ShoreTel program if it was previously installed on your device.
