Cherries jubilee is a dish that involves cherries and liqueur, usually a brandy or Kirschwasser. Originally, the cherries were simply poached in a sugary syrup and served with warm brandy, which was set on fire for a dramatic presentation as it was served to guests. Modern recipes serve the cherries with ice cream, but the fire has remained a key part of this dish. Cherries jubilee was first served at one of the jubilee celebrations of Queen Victoria and the popularity for the dessert skyrocketed during her reign. It was considered a highly fashionable dessert to offer one’s guests. The dessert made a comeback in the 1950s and 1960s, and now this classic dessert has earned itself a new brand of retro prestige. For National Cherries Jubilee Day on September 24, we invite you to join us in indulging in this most dramatic of desserts.
On this day in history: September 24, 1906

The perpendicular rock formation known as Devil’s Tower is named the first national monument in the United States. The Antiquities Act passed in June of the same year paved the way for President Theodore Roosevelt to begin declaring national monuments. Throughout his term as president, he would declare 17 more national monuments.
National Punctuation Day

National Punctuation Day commemorates all punctuation on September 24th. A period, a comma, a semicolon, a question mark and an exclamation point are examples of some of the punctuation used in writing. They separate sentences and their elements to clarify meaning. Without them, meaning would be lost or up for interpretation.
