

# Assessment & Survey Opt-Out Form

Parents or guardians of CPS students may choose to keep their student from participating in some required district assessments and surveys. However, the decision to opt-out any student from district assessments and surveys must conform to the Board policy as outlined below.

*In order to achieve the purposes of the student assessment program and comply with state and federal law, the district requires all enrolled students to participate in all applicable aspects of the district assessment program, including statewide assessments. [Policy IL](#)*

All district assessments are listed on the District [Assessment and Survey Calendar](#), located on the CPS website or available from your student’s school. Some assessments are ineligible for opt-out. See complete list on the [Assessment & Survey Opt-Out](#) website.
