* An employee as of October 15, 2019 who has educational credit equaling a master's degree plus 45 hours or more, will be placed in the Grandfathered column. Placement in the Grandfathered column means, based on the current schedule, you would have been disadvantaged. The grandfathered column was created to ensure that no employee's pay will decrease. Employees on this column, upon approval by the board, will advance a step each year. However, if at any point additional funds are put in the schedule, the grandfathered column will not receive those increases.
