

## FIBER SERVICE

An RFP was issued for Fiber Services and only one bid response was received. This agreement will continue the existing partnership with the City of Columbia to provide Leased Dark Fiber for the connectivity of the District Wide Area Network (WAN). This contract will begin on July 1, 2017 and last for a five year period.

Each fiber supports up to 10Gigabit of connectivity to each site. Fiber services are required to support rapidly growing bandwidth needs and to meet the State Education Technology Directors Association standard recognized in the FCC Second E-rate Modernization order as the benchmark standard for bandwidth for school districts.
