

TABLEAU SERVER LICENSES

Data Services is seeking a data visualization tool that will enable quick and easy access to data and analysis for schools. An industry standard in data visualization is a program called Tableau. Tableau will enable Data Services to create reports and tools that will help principals and teachers quickly analyze their data in a visual manner answer important questions about program effectiveness. They will also be able to drill down to the individual student level to answer to determine which students need extra assistance. The submitted bid from SHI INTERNATIONAL CORP is the overall best value for the District when taking into consideration the annual renewal per license. Annual renewal fees are approximately 1/5 of the initial cost.

VENDORS	Initial Order of 40	Additional License Price	Annual Renewal Per License	Annual Support Per License
