

Dear CPS Faculty & Staff:

The district provided an update for families this evening. The update includes bus routes and stop times for our Grab-and-Go meal service that will be available starting March 30. A route list is also attached. You might also note information related to hotspots and internet access. We've gotten quite a few questions about that.

Thank you for all you're doing in support of our students and families! We're all in this together!
