

COVID Tracker: Positive Cases vs. Positivity Rate — September 16, 2020

Dear CPS Families,

You may have heard about the revised positivity rate for our community. Our [CPS COVID Tracker](#) uses positive case numbers not the positivity rate and the district is not impacted by this change.

Our numbers include only cases identified in areas served by Columbia Public Schools.

The daily tracker on our website uses total positive cases from the last 14 days added together and divided by 15 to obtain the 14-day rate per 10,000.

You can follow our tracker and learn more about the Learning Mode Matrix on our [website](#).
