In listening to family feedback, we know that there is a need for choice among learning options for the 2020-2021 school year. We are excited to provide CPS Virtual as an alternative to in-person learning for middle and high school students.

CPS Virtual will offer the opportunity for a student to take all or most of their courses online. Exceptions will be at student and family discretion when a desired course cannot be effectively delivered online. Courses follow the same calendar as in-person courses.

Students will have access to the courses they had already requested for the 2020-2021 school year, provided those classes can be taught in an online environment and there are a sufficient number of students enrolled.

We are committed to equitable access for all student in our district and will provide devices to all families who choose this program and hot spots to students needing those. We are also working on continuing the lunch program for students learning at home.

2020-2021 CPSVirtual Program

- Daily online classes led by CPS teachers
- Courses are available for grades 6-12
- Courses will have a blend of synchronous (real-time instruction) and asynchronous (student working on their own schedule)
- Courses will have same pacing and calendar to in-person versions
- 6-12 students will be given feedback through the A-F grading system
- If students select CPS Virtual, they are still eligible for MSHSAA Sports and Activities, if they meet the enrollment and credit requirements (MSHSAA By-Law 2.3.4.b)
- Some CTE (Career and Technical Education) and other courses not available online will be available to CPS Virtual students who would choose to attend

Next Steps

Enrollment is open June 22 - 30. We are here to support you in making the choice that is best for your child and family.
