

PROGRAMS FOR ENGLISH LANGUAGE LEARNERS

The Board of Education recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. Identifying students who are English language learners (ELL) and ensuring them equal access to appropriate programs are the first steps to improving their academic achievement levels.

Definitions

Language Minority (LM) – Refers to a student whose linguistic background, such as country of birth or home environment, includes languages other than English. Language minority is based solely on the student’s language background and not on proficiency.

Limited English Proficiency (LEP) – Proficiency in reading, writing, listening or speaking English that is below grade- and age-level peers. Limited English proficiency is based on the assessment of a student’s English language proficiency.

English Language Learner – Refers to an LM student with limited English proficiency.

English for Speakers of Other Languages (ESOL) – An instructional approach that can include structured ESOL immersion, content-based ESOL and pull-out ESOL instruction.

1. Structured ESOL immersion involves a bilingual teacher and a self-contained classroom.
2. Content-based ESOL allows the student to remain in the regular classroom and focuses on delivering content in an adapted English format.
3. Pull-out ESOL periodically removes students from the regular classroom for instruction in English.

Bilingual Education – An instructional approach that explicitly includes the student’s native language in instruction. This approach requires an instructor fluent in the student’s native language and proficient in content areas and is often used where many ELL students share the same language and where qualified bilingual teachers are available.

Child – Any individual age 3-21.

Parent – Parent, legal guardian or person otherwise responsible for the child.

Critical

Language Instruction Education Program – An instructional course in which an ELL child is placed for the purpose of developing and attaining English proficiency while meeting challenging state academic achievement standards as required by law. The program may make instructional use of both English and a child's native language and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

The superintendent will designate a member of the district's professional staff to serve as the coordinator of ELL.

The Board directs the coordinator to develop and implement language instruction programs that:

1. Identify language minority students through the use of a Student Home Language survey (see IGBH-AF1). The building administrator will develop procedures to ensure that all new and currently enrolled students complete the Home Language survey.
2. Identify LM students who are also English language learners. Any student who indicates the use of a language other than English will be assessed for English proficiency using the state-approved assessment instrument.
3. Determine the appropriate instructional environment for ELL students.
4. Annually assess the English proficiency of ELL students and monitor the progress of students receiving ESOL or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
5. Provide parents with notice of and information regarding the instructional program as required by law. Parental involvement will be encouraged and parents will be regularly apprised of their child's progress.
